

The Reviewers Art

2018

The Reviewer's Art -2018 is an exploration of the subset of appraisal practice related to appraisal quality control. It is relevant for those established appraisers who would like to expand their work into a alternative activity, in effect, a diversification of their appraisal practice. For most appraisers, it is an insight into the world of reviewers who are almost daily providing feedback to banks and lending institutions on the quality, appropriateness and credibility of their work.

The course uses a power point presentation with an integrated handout to examine the objectives outlines below, covering everything from preparing to become an appraisal reviewer to objective, impartial reporting. There is special emphasis on source material for documenting appraisal users expectations. And, of course, the application of USPAP 2018-19 Standards Rules 3 and 4 along with applicable Frequently Asked Questions from USPAP are included.

The course will provide 7 hours of Continuing Education Credit for the Kentucky Real Estate Appraiser's Board and can provide credit for adjacent states with the proper paperwork, and in some cases, a small fee.

Class Fee (including materials) \$135
(bring your 2018-19 USPAP book)
Class begins at 9:00 AM local time
Register by Phone at 859-734-3174
